SKILLS

- **Languages**: Python, HTML, CSS
- **Tools/Platforms**: Git, Linux, Vs code, GitHub, Nmap, Burp Suite, Cisco Packet Tracer
- **Soft Skills**: Problem-Solving, Team Player, Adaptability, Quick Learner

PROJECTS

- **Contact Management System | GitHub: Link** Jun' 25 – Jul' 25
  - Built a command-line Contact Management System enabling users to add, search, update, and delete contacts with structured data handling.
  - Optimized storage and lookup processes by applying real-world DSA principles to improve search and execution performance.
  - Applied system design practices to ensure clean, modular, and efficient program structure.

  Tech: Python, DSA
- **SYN Flood Attack Simulation & Packet Analysis | GitHub: Link** Nov' 25 – Dec' 25
  - Executed a controlled SYN flood attack in a virtual cybersecurity lab using Parrot OS, VirtualBox, and hping3 to simulate a DoS scenario.
  - Analyzed malicious traffic in Wireshark using filters to identify incomplete TCP handshakes and abnormal network behavior.
  - Investigated TCP session states with netstat to detect half-open connections and SYN_RECV patterns caused by the attack.

  Tech: Parrot OS, hping3, Wireshark, netstat, Metasploit, iptables, VirtualBox

TRAINING

- **CSE Path shala | Link** Jun' 25 – Jul' 25
  - Completed a structured program covering core data structures and algorithms.
  - Implemented sorting and searching algorithms through programming assignments.
  - Passed assessments and evaluations demonstrating a strong understanding of fundamental computational concepts.

  Tech: Hands-on experience with Arrays, Linked Lists, Stacks, Queues, Trees, and Graphs.
- Amroha Police Cybersecurity Internship program (APCSIP-25) | Link Jun' 25 – Jul' 25
  - Secured selection from a nationwide applicant pool of 4000+ candidates for APCSIP-2025.
  - Attended 30+ expert-led sessions on digital forensics, OSINT, cyber laws, phishing, ransomware, and financial frauds.
  - Strengthened cybersecurity fundamentals by practicing real-world investigative workflows in a controlled environment.

  Tech: Cybersecurity labs, OSINT platforms, digital forensic utilities, network analysis tools, investigation portals.

CERTIFICATES

- Privacy and Security in Online Social Media | NPTEL | IIT Kharagpur Apr' 25
- Basics of Data Structures and Algorithms Using Python | CSE Path shala Jul' 25
- Ethical Hacking | Rising Tech Pro Mar' 24
- Legacy Responsive Web Design | Free Code Camp Oct' 23

ACHIEVEMENTS

- **Runner-up – Trinetra 20-hour Hackathon Link** Feb' 25

  Achieved Runner-Up position in the Trinetra 20-Hour Hackathon for delivering an innovative working prototype under strict time constraints.
- **Republic of Cyber Sentinels Capture The Flag (RCSCTF24) | Link** Mar' 24

  Demonstrated cybersecurity skills during Republic of Cyber Sentinels CTF (RCSCTF24) through consistent participation and problem-solving.

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering | ***CGPA: 7.52*** *Aug 2023 – Present*
- **Arihant Public School** Kota, Rajasthan
  Intermediate | ***Percentage: 59*** *Apr 21 - Mar 23*
- **Army Public School** Jalandhar Cantt, Punjab
  Matriculation | ***Percentage: 87*** *Apr '19 – Mar '20*
